

LED BULB ASSEMBLING

The department of ECE has initiated the consultancy work at our college campus in the domain “Testing of Circuits, PCB and Equipments in laboratory” for **Bhavani Marketing, New Delhi** during January 2018

Objectives of this work:

- To develop a self sustaining and technologically fertile environment
- To encourage and enable the alignment of R&D activities to potential needs of industry.

Aim of this work:

- To create a collaborative environment between industry and academia through this consulting assignment
- To inculcate the practical knowledge in the domain chosen.
